Artwork Samples:

How To Use This Sizing Verification Sheet

1. Download this .pdf file to your computer and open it using Illustrator, Photoshop or other software that allows you to edit .pdf files. NOTE: If you do not have access to the software listed above, you can upload this .pdf file to pdffiller.com and edit the .pdf using that website's online tools (though there is a small charge for using this site, we found it very effective and easy to use), or you can take the .pdf file along with your artwork file to your local print or design shop that offers these services.
2. Please enter your Account ID and Account Name where indicated on this form.
3. Once you have created your artwork (see guidelines in the 'Artwork' tab of our Impressions page), copy the artwork into this .pdf, placing one copy in the area marked "Enlarged Artwork" and a second copy sized to fit inside the sample box (containing mm sizes) appropriate to the size stamp you want to customize.
4. Save the completed .pdf file.

Sizing Grid

Find the size below that meets your height needs; the width of your stamp will be made proportional to that height.

Units Increase in quarter mm increments

Enlarged Artwork

For your bench. At your side.

Custom Stamp Information
